Profile

Designer with 6+ years of experience delivering products for global brands like H&M, IKEA, Zara, while managing end-to-end design processes and stakeholder collaboration. Adept at balancing user needs, business goals, and production constraints to create effective solutions. Now applying this problem-solving mindset to craft intuitive and scalable UI/UX experiences.

Professional Experience

UI UX Designer, Asmadiya Technologies
03/2026 – Present | Pune, India

- **Led end-to-end UX and UI design** for an enterprise workflow automation platform, delivering 15+ core modules from research and wireframing to high-fidelity interfaces.
- **Built and scaled a comprehensive design system** with reusable components, design tokens, and documentation, enabling consistent experiences and faster product development.
- **Translated complex technical requirements into intuitive experiences** by redesigning the product's workflow canvas through research and iterative enhancements.
- **Partnered closely with founders and engineering teams** to define product requirements, iterate on solutions, and deliver production-ready designs with seamless developer handoff.

UI UX Designer, DesignMe
12/2025 – 02/2026 | Pune, India

- **Built a scalable design system from the ground up** for an HR web application, establishing design tokens, reusable components, and UI patterns to ensure product consistency and faster development.
- **Designed the Time Tracking module end-to-end**, mapping user flows and delivering wireframes, interactive prototypes, and high-fidelity UI screens.
- **Led the complete UX redesign** of a drilling analytics enterprise website, conducting user research, paper wireframing, low-fidelity exploration, and final UI design.
- **Collaborated closely with the client** to translate requirements into UX solutions and guided WordPress implementation to ensure accurate design execution.

Executive Textile Designer, Jawandsons Pvt. Ltd.
01/2021 – 12/2023 | Ludhiana, Punjab

- **Designed textile products for global brands including IKEA, H&M, Zara**, aligning seasonal trends, brand aesthetics, and production constraints for the US market leading to total revenue of INR 400 cr+ INR per brand deal.
- **Led end-to-end sample R&D and collection development**, coordinating with cross-functional teams and managing design approvals with international stakeholders.
